

White mustard

COVER

Classic white mustard with delayed flowering

Benefits:

- Rapid and healthy initial development which allows flexible sowing dates
- Fast soil coverage with pronounced leaf formation for effective weed suppression and optimal soil tilth
- Flowering delayed and strong vegetative development for optimal rooting and improvement of the soil structure
- Freezing off safely - the frozen mulch layer protects against erosion during winter
- Preserves nutrients during winter, reduces the risk of leaching and provides the nutrients for the following crop in spring
- **COVER** is especially recommended for cultivation in water protection areas and mulch sowing
- Excellent suitable for agricultural blends

Variety characteristics: (Officially confirmed or respectively in line with Bundessortenamt)

	bad / early / short / low	good / late / long / high / tall
Initial mass formation		7
Tendency to flower	4	
Resistance to lodging		7

Züchter: P. H. PETERSEN Saatzucht Lundsgaard GmbH, Version: 03.05.2019 / 14.00

White mustard

COVER

Classic white mustard with delayed flowering

Usage:

Green manure
Ground water protection / Nitrogen conservation
Mulch sowing
Humus formation
Protection against erosion
As component suitable for greening blends

Crop rotation suitability:

+ suitable / ++ strongly recommended

Maize	++
Cereals	++
Oilseed rape	
Sugar beets	
Potatoes	
Intensive crops	
Legumes	++

Agronomic features:

bad / early / short / low good / late / long / high / tall

Weed suppression	8
Protection against erosion	7
Ground water protection / Nitrogen conservation	8
Humus formation	6
Cold- and frost resistance	1
Drought tolerance	8

Type of root	Tuft root with strong main root
Rooting depth	120 cm

Cultivation recommendations:

Recommended sowing rate	15 - 20 kg/ha
Sowing depth	1 - 2 cm
Sowing period	Early August until middle of September - depending on location!
Fertilization	40 - 60 kg N/ha
Crop protection	Usually no plant protection required
Sowing method	Low requirements regarding sowing method: spreader or seed drilling
