

Nematode resistant White mustard

GAUDI

An enjoyment before sugar beets

Benefits:

- High resistance against Beet Cyst Nematodes, resistance level 2
- Intensive vegetative growth and low inclination to flower support the efficient reduction of nematodes
- The leafy growth of **GAUDI** is a good basis for an effective weed suppression and increase of teeth due to shadowing
- Promoting the soil biological activity of beneficial organisms by supplying organic matter
- Strong, widely branched root system improves the water and air balance of the soil and protects valuable nutrients from leaching and displacement over winter

Included in blends: viterra® MULTIKULTI

Variety characteristics: (Officially confirmed or respectively in line with Bundessortenamt)

	bad / early / short / low	good / late / long / high / tall
Resistance against <i>Heterodera schachtii</i>	Resistance level 2	
Initial mass formation	6	
Tendency to flower	3	
Stiffness	6	

Breeder: P. H. PETERSEN Saatzucht Lundsgaard GmbH, Version: 20.09.2018 / 10.00

Nematode resistant White mustard

GAUDI

An enjoyment before sugar beets

Usage:

Reduction of Beet Cyst Nematodes
Green manure
Ground water protection / Nitrogen conservation
Mulch sowing
Humus formation
Protection against erosion

Crop rotation suitability:

+ suitable / ++ strongly recommended

Maize	++
Cereals	++
Oilseed rape	
Sugar beets	++
Potatoes	
Intensive crops	
Legumes	++

Agronomic features:

bad / early / short / low good / late / long / high / tall

Weed suppression	7
Protection against erosion	8
Ground water protection / Nitrogen conservation	7
Humus formation	6
Cold- and frost resistance	1
Drought tolerance	8

Type of root	Tuft root with strong main root
Rooting depth	120 cm

Cultivation recommendations:

Recommended sowing rate	20 - 25 kg/ha
Sowing depth	1 - 2 cm
Sowing period	August until early September - depending on location! Early sowing increases control success
Fertilization	40 - 60 kg N/ha
Crop protection	Usually no plant protection required
Sowing method	Low requirements regarding sowing method: spreader or seed drilling
