

Marrow stem kale

GRÜNER ANGELITER

Protein and vitamin-rich dairy cattle fodder

Benefits:

- Very high mass yield with high leaf content
- A good addition to silo maize because of the high protein content
- Good utilization of autumn rain favors the high yield potential
- **GRÜNER ANGELITER** leaves a good soil as its root system supplies valuable organic matter
- Frost resistant up to -12 °C
- Largely resistant to Club Root

Variety characteristics: (Officially confirmed or respectively in line with Bundessortenamt)

	bad / early / short / low	good / late / long / high / tall
Dry matter yield		7
Protein yield		6
Initial mass formation		6
Plant height		6
Frost sensitivity		6
Stem thickness		5

Breeder: P. H. PETERSEN Saatzucht Lundsgaard GmbH, Version: 20.09.2018 / 9.00

Marrow stem kale

GRÜNER ANGELITER

Protein and vitamin-rich dairy cattle fodder

Usage:

Green manure
Biogas- and fodder production
Protection against erosion
Humus formation
Game cover

Crop rotation suitability:

+ suitable / ++ strongly recommended

Maize	++
Cereals	++
Oilseed rape	
Sugar beets	+
Potatoes	+
Intensive crops	
Legumes	+

Agronomic features:

bad / early / short / low good / late / long / high / tall

Weed suppression	5
Protection against erosion	5
Ground water protection / Nitrogen conservation	7
Humus formation	3
Drought tolerance	2
Type of root	Tap root
Rooting depth	130 cm

Cultivation recommendations:

Recommended sowing rate	3 - 4 kg/ha
Sowing depth	1 - 2 cm
Sowing period	After early harvesting cereals until end of July
Fertilization	100 - 140 kg/ha N
Crop protection	Observing the weed pressure in pre-emergence and youth stadium if necessary implement regulation measure
Sowing method	Drill seed is recommended
Harvest	Depending on sowing date from July to January; from the standing stock, for fresh fodder or silage use
