

Summer forage rape

JUMBO 00

Practice-tested green fertilizer and forage plant

Benefits:

- Fast growing 00-spring forage rape - free of erucic acid and glucosinolates
- Equally suitable for green manure and fodder
- Rapid soil coverage for a good shade tilth and weed suppression
- Cost-effective, nutritious fodder (fresh or silage)
- Grazing is also possible, but with higher pasture remains than winter forage rape
- **JUMBO 00** has low requirements regarding the soil texture - also suitable for lower soils

Variety characteristics: (Officially confirmed or respectively in line with Bundessortenamt)

	bad / early / short / low	good / late / long / high / tall
Dry matter yield		6
Initial mass formation		6
Tendency to flower	1	
Presence of erucic acid	No	
Presence of glucosinolates	No

Summer forage rape

JUMBO 00

Practice-tested green fertilizer and forage plant

Usage:

Green manure
Biogas- and fodder production
Ground water protection / Nitrogen conservation
Protection against erosion
Humus formation
As component suitable for greening blends
Game cover

Crop rotation suitability:

+ suitable / ++ strongly recommended

Maize	++
Cereals	++
Oilseed rape	
Sugar beets	+
Potatoes	+
Intensive crops	
Legumes	+

Agronomic features:

bad / early / short / low good / late / long / high / tall

Weed suppression	9
Protection against erosion	6
Ground water protection / Nitrogen conservation	8
Humus formation	5
Cold- and frost resistance	3
Drought tolerance	5

Type of root	Tap root
Rooting depth	100 cm

Cultivation recommendations:

Recommended sowing rate	Feed production 8 - 10 kg/ha, Green manure 15 - 20 kg/ha
Sowing depth	1 - 2 cm
Sowing period	July to September , preferably after winter cereals
Fertilization	60-100 kg N / ha; Liquid green manure is efficiently utilized by the rapid growth up to 10 - 15 cm plant height
Crop protection	Usually there is no plant protection required
Sowing method	Drill seed or spreader
